OFFICE OF THE CENTER DIRECTOR

9611 S RIVERBEND AVE

PARLIER, CA, 93648

I started my career with the USDA, ARS, San Joaquin Valley Agricultural Sciences Center (SJVASC) in Parlier, CA, in 2002, as a Research Unit Secretary. In 2004, I became the secretary to Dr. Edwin Civerolo, SJVASC Center Director. My duties encompass organizing, coordinating and preparing standard office procedures for the Center which include the use of ARIS, GovTrip, WebTA, along with various other software programs. Prior to joining the USDA, I worked as an office manager for a medical doctor. I was born and raised in central California. I am married and mother of two sons, who are now grown. I live in the foothills and have just enough land to support my hobbies. I have a wonderful garden, enjoy my animals (dogs and horses) and I like to travel.
