*for bees*

## 5th International Orchard Bee Association General Meeting & Symposium

In 2009, a small group of government research scientists, educators and extension agents presented ongoing science related to the successful use of Blue Orchard Bees (*Osmia lignaria*) to pollinate commercial orchards. Since then, the **Orchard Bee Association** was formed and meets each year with the end goal of *improving or supplementing traditional pollination efforts to increase food supply*.

### Simplified Agenda & Registration

- SEPT. 25 Orchard Bee Association **MEMBERS ONLY (\$75)**
