

Local School Outreach

Millville Elementary Science Fair, February 5, 2015. Drs. Robbins and Bushman led a science fair for grades K-5. There were approximately 75 entrants, and the fair took place at the end of parent teacher conferences. Parent volunteers visited each project and the children demonstrated and explained their projects. Thanks to local grocery stores for providing refreshments.

Mountain Crest High School Biology Discussion, May 20, 2015. Dr. Bushman visited with approximately 200 students of Biology about plant genetic principles and projects. The discussion was planned and coordinated by Mr. Thomas, a Biology teacher at the school.
