

Table of Contents

Preface

Acknowledgements

Dedications

Overview

- 1 A better understanding of toxic rangeland weeds in western China—
Causes, evaluation, and strategies for effective management 1
- 2 Plant poisoning in France: An overview 10
- 3 A global perspective of selenium deficiency and toxicity 17

Natural Toxins and the Systems They Affect

- 4 The effect of multiple plant toxins on livestock 25
- 5 Could nitrile derivatives of turnip (*Brassica rapa*) glucosinolates by
hepato- and/or cholangiotoxic in cattle? 31
- 6 Suspected outbreak of photosensitization by furocoumarins from
common rue (*Ruta graveolens* L.) in sheep 42
- 7 Wild parsnip (*Pastinaca sativa*)-induced photosensitization in goats
and horses 48
- 8 The clearance of *Delphinium* alkaloids from the serum of cattle 54
- 9 Caterpillars and abortion in grazing and browsing herbivores 60
- 10 Neurologic manifestations of “ryegrass staggers” in camels 66
- 11 Rockrose (*Cistus* sp.) neurotoxicity in sheep in France 71
- 12 Clinical cases of endophyte disease in the northwest USA and Canada:
Ryegrass staggers, fescue toxicosis, and ergot toxicosis 77
- 13 Effect of the *Pimelea* toxin simplexin on cattle 83
- 14 The role of endophyte genotype in determining swainsonine
concentrations 89
- 15 Giant fennel (*Ferula communis* L.) intoxications in livestock in France 95
- 16 Suspected toxic hepatopathy of plant origin in wild southern
hairy-nosed wombats (*Lasiorhinus latifrons*) 100
- 17 An outbreak of lupinosis resulting from the feeding of toxic lupin seed 107
- 18 Response of lactating ewes and growing lambs exposed to the
sclerotia of *Claviceps purpurea* 113
- 19 Halogeton (*Halogeton glomeratus*) poisoning in cattle 118
- 20 Oak leaf poisoning in cattle: A review of 50 years of research in
China 121
- 21 Species susceptibility to locoweed poisoning and evaluation of chicks
as a small animal model of poisoning 126

The Healing Power of Poisonous Plants

- 22 The influence on livestock industry and development prospect of
Eupatorium adenophorum Spreng 131
- 23 Anti-cancer effects of total flavonoids in *Stellera chamaejasme* L. on
SMMC-7721 human liver cancer cell line 139
- 24 Study on the growth influence of the *Sophora alopecuroides* L. seed dregs
and synbiotics to several kinds of chicken intestinal bacteria *in vitro* 146

Advances in Research

25	The role of chemistry in poisonous plant research: Current status and future prospects	152
26	A rapid HPLC-APCI(-)MS method to detect fluoroacetate in plants	158
27	Observing the effect of No. 3 Detoxifying Concentrated Feed on preventing <i>Oxytropis glabra</i> poisoning in goats	164
28	Study on <i>Stellera chamaejasme</i> identification technology using IKONOS data	171
29	Study on <i>Stellera chamaejasme</i> spectral characteristics in Qilian Mountains of Qinghai province	179
30	Phylogenetic analysis on locoweeds and their endophytes	186
31	Identification of the toxic component(s) in white snakeroot (<i>Ageratina altissima</i>)	194
32	Isolation of endosymbionts from <i>Ipomoea carnea</i> and <i>Swainsona canescens</i> that produce swainsonine	201
33	A monoclonal antibody-based ELISA for the hedgehog inhibitors cyclopamine and cyclopamine derivatives	207
34	New dehydropyrrolizidine alkaloids isolated from a <i>Crotalaria</i> and two <i>Cryptantha</i> species	212

Ecology, Control, and Management of Poisonous Plants

35	40 year perspective on the ecology and control of poisonous plants	219
36	Comparison of growth soil environments for <i>Oxytropis glabra</i> and <i>Astragalus variabilis</i> in desert grassland	223
37	Relationship between <i>Stellera chamaejasme</i> community characteristics and soil moisture in Qilian mountains grassland	228
38	Relationship between swainsonine concentrations and endophyte amounts of <i>Undifilum oxytropis</i> in <i>Oxytropis glabra</i> DC.	236
39	Germination, biomass production, and root growth in range restoration grasses on selenium overburden soils	244
40	Lupine consumption by cattle in the Scablands of eastern Washington	250
41	Intermittent grazing: A management tool to reduce the impact of lupine-induced crooked calf syndrome (CCS)	257
42	Mitigation of lupine-induced crooked calf syndrome on the channel scablands of eastern Washington through rangeland remediation	264

Miscellaneous Topics

43	Rodent models to evaluate the behavioral and physiological effects of plant toxins	270
44	Carcinogenic effects of riddelliine on P53 knockout mice	276
45	<i>In vitro</i> cytotoxicity of various dehydropyrrolizidine ester alkaloids	281
46	Functional gene location of swainsonine degradation from <i>Arthrobacter</i> sp. HW08	287
47	Agonist mediated fetal muscle-type nicotinic acetylcholine receptor desensitization	296
48	Pine needle abortion in cattle update: Metabolite detection in sera and fetal fluids from abortion case samples	301
49	An unsuccessful attempt to prevent and treat lupinosis in sheep with diisopropylamine dichloroacetate	307

50	Grain sorghum utilisation by poultry: Role of anti-nutrient factors and feed enzymes	312
51	HPLC-esi(+)MS and MS/MS profiling of dehydropyrrolizidine alkaloids in some herbarium-preserved <i>Amsinckia</i> species	316
	Presentations published elsewhere	323
	Index	325
	Index of authors	328
