

WSU and ARS scientists will host a field tour of ongoing research on mint at the WSU-Prosser experiment station on Tuesday, June 3, at 4 p.m. The field tour will include weed management research on peppermint and spearmint. Following the tour, the Washington Mint Commission will host a BBQ dinner on site. Call Rick Boydston, USDA-ARS if you need directions or have other questions about the tour. (509) 786-9267.
