

## Greetings L1 Nation

I feel like we have found a sale format to fit our clientele. We will again be having a completely online sale this year through Smart Auctions. This platform seemed to work well last year and simplified the sale for us.

Bull videos and pictures will be available to view on [smartauctions.co](http://smartauctions.co). The sale opens **Monday April 25th** and closes **Friday April 29th**. Please register with them to bid, and once the auction is complete, make payment through the site for your purchases. Remember at the end of the auction the highest bid wins; be sure to check the lots before they close. Bidding will be open five days so don't worry about forgetting the day or the time and missing out as I know you are all busy. I miss seeing everyone on sale day, but for now this suits us.

This year you will have the opportunity to bid on a very good selection of yearling bulls. There are several coming 3-year-old herd sires available as well. In addition to the bulls, we are very excited to offer a daughter out of an outstanding cow family.

The bulls are here like always; please stop in anytime you're in the area. The cows are right behind the feedlot this year so you can see them as well.

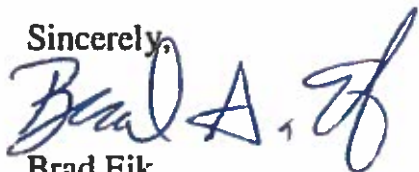

Our ET project is progressing, we have 6 bull calves on feed right now, which will be available in the sale. We are expecting 24 more ET calves this spring and have lots of embryo's going into cows this breeding season. We are very happy with the calves we have and excited to see what these 2022 calves look like.

If you have L1 semen, embryos, or cattle to flush and want to help, it would be greatly appreciated. We have had several donors of flushes, semen, and even a proven cow thus far.

I will help with delivery, so don't let distance stop you from bidding on one or more of the excellent lots available.

Please call with any questions; I look forward to getting these great bulls out around the country, from your original source for L1 genetics.

Sincerely,

Brad Eik

Ranch Manager
