

Wesley Hoffmann, U.S. Department of Agriculture

Dr. Wesley “Clint” Hoffmann is an agricultural engineer with the U.S. Department of Agriculture (USDA) Agricultural Research Service (ARS) in College Station, TX. Dr. Hoffmann joined ARS with a focus on aerial application research, where he serves as the Research Leader of the Aerial Application Technology Research Unit. His research efforts focus on the effects of physical properties and nozzle operational parameters on spray atomization, spray evaluation and development and sampling methodologies for measuring spray droplet transport in the environment. He has authored or co-authored more than 90 peer-reviewed articles on application technology and many more magazine or conference proceeding papers. He is a member of numerous professional organizations such as ASTM International, the American Society of Agricultural and Biological Engineers and the American Mosquito Control Association.
