

**Matthew J. Picklo, Sr., Ph.D.**

Supervisory Research Physiologist/Research Leader  
USDA Agricultural Research Service  
Grand Forks Human Nutrition Research Center  
Grand Forks, North Dakota 58203-9034  
701-795-8380  
matthew.picklo@usda.gov

**A. Vitae**

Academic Record: Ph.D., Pharmacology, Vanderbilt University, Nashville, TN 1995  
B.A., Biological Sciences, University of Delaware, Newark, DE, 1990

**Experience:**

2001-2007 Assistant Professor, Department of Pharmacology, Physiology, and Therapeutics, School of Medicine and Health Sciences, University of North Dakota. Full member, graduate faculty of UND.

2007-2009 Associate Professor, Department of Pharmacology, Physiology, and Therapeutics, School of Medicine and Health Sciences, University of North Dakota

2004-Present Assistant Professor then Associate Professor (adjunct), Department of Chemistry, School of Arts and Sciences, University of North Dakota.

2004-2009 Director of Graduate Programs, Department of Pharmacology, Physiology, and Therapeutics

2009-present Research Leader/Lead Scientist, USDA/ARS Grand Forks Human Nutrition Research Center; Supervisor for Analytical and Cell Culture Facilities

2015-2019 Co-organizer, Northern Great Plains Lipid Conference.

**Education**

1986-1990 B.A., University of Delaware, Biological Sciences, cum laude

1990-1995 Ph.D., Vanderbilt University, Pharmacology  
Mentor: David Robertson, M.D.

1995-1996 Research Fellow, University College London, Department of Anatomy;  
Mentors: Geoffrey Burnstock, D.Sci. and David Latchman, D.Sci.

1996-2001 Research Fellow, Vanderbilt University, Department of Pathology  
Mentors: Thomas Montine, M.D., Ph.D. and Doyle Graham, M.D., Ph.D.

2008 "Principles of Management" University of North Dakota. "A" grade; 3 undergraduate level credits.

2010 "Leading Change: Executive Development Seminar" U.S. Office of Personnel Management. 4 credit hours graduate level equivalent

2012 "Science, Technology, and Public Policy" U.S. Office of Personnel Management. 3 credit hours graduate level equivalent

2019 "Ecological Restoration" University of Minnesota Crookston. 3 credit hours.

### Honors and Awards

1990-1993 NIH Pharmacology Training Grant  
1993-1995 NIH SCOR Hypertension Training Grant  
1995-1996 Special Trustees Award of Middlesex Hospital, London UK  
"Redirecting the Tropism of HSV Vectors", (£16,000 stipend for one year)  
1998 Young Investigator Award, Albany Conference on Mitochondrial Research  
1998 Young Investigator Award, The Oxygen Society, Washington, D.C.  
2006 Visiting Professor Travel Award, University of Rome "Tor Vergata"  
2006 Session Chair, 13<sup>th</sup> International Symposium on the Enzymology and Molecular Biology of Carbonyl Metabolism, July, 2006  
2008 Session Chair, 14<sup>th</sup> International Symposium on the Enzymology and Molecular Biology of Carbonyl Metabolism, July, 2008, Kranjska Gora, Slovenia.  
2008 Hermann Esterbauer Award, presented by the HNE-Club, a specialty section of the International Society for Free Radical Research  
2010 ChemLuminary Award for Outstanding Leadership Development Program American Chemical Society meeting. Boston, MA.  
2010 Northern Plains Area ARS Training Scholarship \$5750 for Executive Development Course  
2012 Co-Chair, American Society for Nutrition Symposium "Adipose Dysfunction: Interaction of Reactive Oxygen Species and Inflammation". Experimental Biology 2012, San Diego, CA.

### Professional Memberships

American Oil Chemists' Society  
Chair, Health and Nutrition Division 2017-present  
Vice-Chair Health and Nutrition Division 2016-2017  
American Chemical Society,  
Red River Valley Section, Chair 2010, 2012  
Chair-Elect 2009  
Member-at-Large 2008  
2009 and 2010 \$3000 awards for hosting Leadership Development Programs  
2010 \$300 for hosting a Science Café  
American Society for Nutrition  
Dietary Bioactives RIS  
Nutrient Gene Interactions RIS  
Obesity RIS

### Editorial Memberships

Editorial Board Member, *Advances in Nutrition*, 2016-present  
Editorial Board Member, *Chemico-Biological Interactions*, 2015-present  
Editorial Board Member, *Nutrition Reviews*, 2014-present  
Associate Editor, *Lipids*, 2006-present  
Senior Associate Editor, *Lipids*, 2020-present  
Associate Editor, *Journal of Alzheimer's Disease*, 2007-2008

## Invited Seminars

“Knowledge gaps in energy dense, (un)saturated research” Lipid Nutrition and Metabolism in Human Health, Satellite Meeting of the Canadian Nutrition Society, Winnipeg, MB, May 2015.

“Nutritional and Clinical Aspects of Farmed Fish Intake” American Oil Chemists’ Society, San Antonio, TX, May 2014.

“Developing the Relationship of ARS Aquaculture and Nutrition: Fish Consumption and Omega-3’s”. USDA/ARS National Center for Cold and Cool Water Aquaculture, Kearneysville, WV, July 2012.

“Reactivity and Biological Functions of Oxidized Lipids” Sunrise Free Radical School, Society for Free Radical Biology and Medicine meetings. Orlando, FL. November, 2010.

“Lipids, Oxidative Damage, and Obesity: A Journey from Aldehydes to Insulin”. University of Maryland. Dept of Nutrition and Food Science. December 2009.

“Lipids, Oxidative Damage, and Obesity: A Journey from Aldehydes to Insulin”. Western Human Nutrition Research Center-ARS, Davis, CA, November, 2009.

“Role of lysyl acetylation in alcoholic liver disease”. Keynote Speaker, Department of Pharmacology Retreat, Vanderbilt University, October, 2008.

Invited speaker “Lipid Peroxidation 2008” Karuizawa, Japan. Satellite meeting of the Society for Free Radical Research.

“Oxidation of gamma-hydroxy-2-nonenal in CNS systems”. 12<sup>th</sup> International Symposium on the Enzymology and Molecular Biology of Carbonyl Metabolism, Nashville, IN. USA, July 2006

"Brain Metabolism of the Endogenous Neurotoxin 4-Hydroxy-2-Nonenal" Department of Biology, Department of Biology, University of Rome Tor Vergata, Rome, Italy, September 2005.

"Metabolism of the Neurotoxic Aldehyde 4-Hydroxy-2-nonenal (HNE) in the Brain". St. Cloud State University, St. Cloud, MN. November 2004.

"Aldehydes and the Brain: More Questions than Answers". Valley City State University, Valley City, ND. April 2004.

“4-Hydroxynonenal metabolism in the CNS.” USDA Human Nutrition Research Laboratory, Grand Forks, ND. October, 2002

“Characterization of CNS aldehyde dehydrogenases that utilize 4-hydroxynonenal.” Tenth International Symposium on the Enzymology and Molecular Biology of Carbonyl Metabolism, Ystad, Sweden. July, 2002.

“Toxicology of Aldehydes in Neurodegenerative Disease.” Science 2000 Forum. NIEHS, Research Triangle Park, NC. April 2001.

“Neurotoxicology of Aldehydes in Neurodegenerative Disease.” Marshall University, Department of Pharmacology, Huntington, WV. February 2001.

## B. Research

### Interests

My research is guided towards developing nutritional strategies to improve health and reduce disease risk. A major focus of this work is determining the role of dietary fats and oils, particularly from fish and plants in preventing disease. This research includes identifying how GxExMxP variables influence the lipidomic composition of foods.

### Grant Support:

#### Current

NIFA-AFRI 2014-67017-21758, Disease risk reduction and LCn3-rich rainbow trout. Role: PI. USDA-NIFA. \$498,000. 20% effort. 2014-2019

USDA-ARS 3062-51000-053-00D, Food Factors and Prevention of Obesity-Related Disease Role: Lead Scientist; Appropriated funds. 80% effort 2015-2019

#### Past

RO1, “Superoxide production from eNOS: The role of pterins”. Role: Collaborator. PI: Jeannette Vasquez-Vivar, Ph.D., Medical College of Wisconsin. Total funds \$119,228. NIH/NHLBI, 10% Effort.

NRSA ES05826-01, “Toxicity of Catechol Thioether Adducts” \$90,000; salary support for three years. Role: PI 1998-2001.

Major Instrumentation Grant, NSF, "Acquisition of an LC/MS/MS System for Chemistry and Medical School Departments", Role: Co-PI. \$255,445. Harmon Abrahamson, PI.

K22 ES 369 ZES1, NIH, “Lipid Peroxidation, Toxicants, and Mitochondria” Role: PI., \$300,000 direct costs

Faculty Seed Money Research Grant, " Analysis of Chiral *trans*-4-Hydroxy-2-nonenal Isomers" Role:PI. \$39,830.

R21 AA15145-01, NIH, ""Ethanol, HNE, and the CNS” Role: PI. \$262,500 direct costs. 25% effort

P20 RR17699-01, Center of Biomedical Research Excellence (COBRE), NIH, “Carbonyl Metabolism in the CNS” Role: Project Director, \$750,000 for this project; five years. Jonathan Geiger, PI. 25% Effort

1R01EH000090-1, Centers for Disease Control, "Pesticide Impacts on Neurological Disease – Reducing Risks. Role: Project Director, \$38,490. Erin M. O'Leary, Program Director. 5% Effort

UND ND EPSCoR Seed Award. "Structural determinants of ALDH activity" \$17,138. Role: PI.

Glycemic Effect of Honey. Role: Co-PI. PI: Susan Raatz. USDA/ARS Grand Forks Human Nutrition Research Center. \$66,000. 5% effort 2011-2014

#### **D. Teaching and Mentoring**

**Director, Graduate Programs, Department of Pharmacology, Physiology, and Therapeutics. University of North Dakota** August 2004-March 2009

**Director, Research And Integrative Laboratory (RAIL) Program 2004.** A program designed to transition North Dakota undergraduates to postgraduate careers in biomedical research in North Dakota.

## **Mentoring**

### **Fulbright Scholars**

Ghanya Al-Naqeb, Sana'a University 2014

### **Research Fellows**

Melissa Meyer, Ph.D.  
Alena Kubatova, Ph.D.  
Aleš Honzatko, Ph.D.  
Emilie Vomhof-DeKrey, Ph.D.  
Petr Žáček, Ph.D.  
Aaron Mehus, Ph.D.  
Bret Rust, Ph.D.

### **Graduate Students**

#### *Past*

Eric K. Long (Ph.D. student, Pharmacology, Physiology, and Therapeutics), laboratory of Dr. Picklo. Graduated 2009.

Jiří Břichač (Ph.D. student, Dept of Analytical Chemistry) Charles University, Prague, Czech Republic, laboratory of Dr. Jiří Zima, co-advisor Dr. Picklo, Graduated 2009

Promise Yong (Ph.D. student, Chemistry), laboratory of Dr. Anamitrou Bannerjee, Graduated 2008

Ladislav Sallai (Ph.D. student, Chemistry), laboratory of Dr. Irina Smoliakova, Graduated 2008

Kristin Hillman (Ph.D. student, Pharmacology, Physiology, and Therapeutics), laboratory of Dr. James Porter. Graduated 2007

Andrew Woster (Ph.D. student, Pharmacology and Toxicology), laboratory of Dr. Colin Combs. Graduated 8-2007

Gina Norsiden (M.S. student, Pharmacology, Physiology, and Therapeutics), laboratory of Dr. James Porter. Graduated 7-2006

Patrick Stevens (M.S. student, Pharmacology, Physiology, and Therapeutics), laboratory of Dr. Jonathan Geiger. Graduated 6-2006.

Melissa Meyer (Ph.D. student, Chemistry), laboratory of Dr. Anthony Borgerding. Member-at-large. Graduated 6-2003.

### **Undergraduate Student Mentoring**

Chadwick Larson, Valley City State University, 2004, obtained an NDEPSCoR AURA award to perform summer research regarding pulmonary aldehyde dehydrogenases.

Mark Miller, UND, Dept of Chemistry; Recipient of \$500 travel award from Molecular Probes for presentation of research at Society for Free Radical Biology and Medicine Meeting, Nov. 2003

Nathan Swenby, UND, Biology; was a Postbaccalaureate fellow at the National Institute on Alcohol Abuse and Alcoholism (NIAAA)

Ethan Nguyen, North Dakota State University- one first author publication

Claire Poppe, Gustavus Adolphus College, currently a graduate student in Medicinal Chemistry at the University of Wisconsin

Leah Brekke, UND, Biology

Roberta Arntzen, UND, Interdisciplinary Studies, 2004, second author publication

Patrick J Nelson, Interdisciplinary Studies; senior thesis, 2006-present, received an NIH summer fellowship for summer 2007.

### **Lecturing**

**Course Instructor and Lecturer, PPT 521 Seminar in Physiology and Pharmacology.** Fall 2004-6. Three hours contact time. I updated and streamlined previous course (see below) to develop the critical thinking skills, intellectual confidence, and presentation skills in students. The evaluations from student (found later in this section) indicate that this course is fulfilling the intended goals. Three hours contact time and 1 hour preparation.

**Co-instructor, PPT 521, Seminar in Physiology and Pharmacology.** Fall 2001-2003. 20 hours contact time. In this course, students were instructed and evaluated in the preparation and presentation of research seminars.

**Lecturer PPT500, Graduate Physiology and Pharmacology.** Fall 2004 and Spring 2005-6. Cardiovascular physiology and pharmacology (10 hours). Anxiolytics (two hours, Spring 2005 and 2006). Preparation time of two hours/hour when lectures were already presented. Approximately five hours per lecture when lectures were new material.

**Lecturer, PPT 501, Graduate Medical Pharmacology.** Fall 2002 and 2003. Six hours lecture time and 30 hours of preparation time as these were completely new lectures. Topics: pharmacokinetics, biotransformation, serotonergic drug, poisoning, and toxicology.

**Lecturer, PPT 523, Graduate Medical Physiology.** Spring 2003. Cardiovascular physiology. 18 hours lecture time. During this offering of PPT523, these were completely new lectures and required about five hours of preparation time per hour of lecture.

**Lecturer, PPT 530, Advanced Neurochemistry.** Spring 2003 and Spring 2005. 6 hours lecture time and preparation time of five hours/ hour of new lecture and two hours/hour of already presented lectures. Topics: synaptic transmission, neurotransmitter synthesis, release, and receptors.

**Lecturer, PPT 535, Mechanisms of Neurodegenerative Disorders.** Fall 2003. Two hours contact time, approximately four hours of preparation time. Topic: mitochondria and cell death.

**Guest Lecturer, Chem 333, Introductory Environmental, Clinical, Biomedical, and Forensic Chemical Analysis.** Fall 2003-2005. One hour of contact time with five hours/ hour of new lecture and two hours/hour of already presented lectures.

**Course Director, PPT 505, Research Techniques.** Fall 2003/Spring 2004/Fall 2005. A course with the objective of introducing students to the wide variety of techniques utilized for separation and quantitation of biological molecules. Topics included UV-Vis Spectroscopy, HPLC, and Protein Purification. For Spring 2004 and Fall 2005, this course was offered for 3 credits with a laboratory. Six hours of lecture time and nine hours of laboratory time. One hour of contact time with five hours/ hour of new lecture and one hour/hour of already presented lectures.

**Lecturer, PPT 511 Biochemical and Molecular Mechanisms in Pharmacology,** Three hours contact time. Fall 2005. Subject: Nuclear receptor signaling. Three hours of preparation time.

**Lecturer PPT540, Molecular Neuropharmacology,** Three hours Fall 2006. Subject: Oxidative stress and signaling.

**Block III Biochemical and Clinical Aspects of Drug Clearance.** Medical student lectures Jan 2005, 2006, 2007.

### **Facilitator**

**Block IV.** Spring semester 2002 and 2003. **Block III.** Spring 2004, Spring 2007-9. **Block VIII.** Spring 2005,6. Guided UND medical students through medical case problems. 100 hrs each Block.

Block IV design team Spring 2006.

### **Academic Service**

#### **Faculty Service/Committee Membership**

##### *University*

2001-2003 Faculty Seed Money Biological Science Subcommittee Grant Reviewer

2003 Alice Clark Mentoring Program Review Panel

2003-2006 University Senate at-large senator

2006-2007 University Senate School of Medicine Representative

2007-2009 Senate Legislative Affairs Committee

2007-2010 Elected Member, University of North Dakota Graduate Committee, SMHS representative

2008-2009 Vice-chair, University of North Dakota Graduate Committee

##### *Departmental*

2001-2002 Graduate Student Recruitment

2001-2004 Seminar Series coordinator

2002 Departmental Cardiovascular Faculty Search

2003-2004 coordinate monthly "Research Vignettes" program

### **Community Service**

Spring 2002 and 2003 Mentor for East Grand Forks High School students that had a day to experience a laboratory setting.

Spring 2002 - 2005 North Dakota Science Fair Judge.

### **Professional Didactic Development**

**Autumn 2001** Participated in the Alice Clark Mentoring Program

**Autumn 2003** Participated in the Faculty Study Seminar sponsored by the Office of Instructional Development. This series analyzed the book entitled "Teaching with Your Mouth Shut" that focused upon teaching styles utilizing example and hands on vs. lecture-based methods.

**June 2004** Participated in the Faculty Study Seminar sponsored by the Office of Instructional Development. This series discussed methods to stimulate critical thinking in students using the book entitled "Engaging Ideas" by John C. Bean. Material and discussion from this series was used as a basis for developing the curriculum for the revised offering of PPT 521.

**February 2006** Participated in the *On Teaching* Lunch Discussion "Directing Independent Studies" sponsored by the Office of Instructional Development.
