

THE NPGS ASH CONSERVATION PROJECT

Contacts: Organizers and Cooperators Information Page

The NPGS Ash Conservation Project is a group effort, involving many individuals, agencies and institutions. We would like to thank and recognize our past (and future) donors and collectors. Their help has been invaluable in building our seed collections. The following donors and collectors have consented to be acknowledged here and are willing to share contact information and their advice and experiences with those interested in making additional ash seed collections.

Mark Widrechner coordinates this project at the USDA-ARS North Central Regional Plant Introduction Station in Ames, Iowa with help from Jeff Carstens.

Farm Headquarters phone #.

Web feedback or to report an error, email david.kovach@ars.usda.gov.
