RE: REQUEST FOR PERMISSION TO REPRODUCE AND MAKE PUBLICLY AVAILABLE CIMMYT PUBLICATION

Dear Dr. Shands:

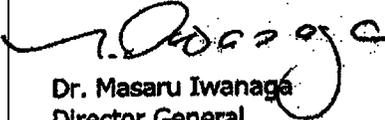

I have received your January 22, 2003 letter requesting CIMMYT's permission to make digital copies of the 1965 CIMMYT publication "Chromosome morphology of certain races of maize in Latin America," by Albert E. Longely and Takeo A. Kato Y (the "1966 Publication"). You have further asked CIMMYT's permission to reproduce the 1966 Publication for free public distribution on CD-ROMs and on the websites of the National Academy Press and the USDA.

We are happy to comply with your request. Accordingly, CIMMYT hereby grants permission to the USDA to carry out these above-mentioned activities with regard to the 1966 Publication. We request only that CIMMYT's status as holder of the copyright in the 1966 Publication be reflected in copies that are publicly distributed.

Please let us know if we can be of further assistance.

With kind regards,

Yours sincerely,

Dr. Masaru Iwanaga  
Director General
