**NEW
DATE!!**

Soil & Water

We've Got it Covered!

Water Quality, Water Use & Cover Crops

A photograph showing a group of people gathered in a field. A yellow school bus is parked on the right, and a white tent is set up in the middle ground. A blue car is parked on the left. The field is filled with green plants and purple flowers in the foreground.

Benefits and challenges to adopting cover crops
Establishment of cover crops in corn/soybean systems
Water and nitrogen use efficiency

Speakers include representatives from:

USDA-ARS North Central Soil Conservation Research Laboratory, Morris MN
USDA-ARS National Laboratory for Agriculture and the Environment, Ames IA
University of MN

UNIVERSITY OF MINNESOTA
Driven to DiscoverSM

2016 Sponsors include:

Ag Country Farm Credit Services - Barnes-Aastad Soil & Water Conservation Association - U of M Extension

The Barnes-Aastad Association is a non-profit organization of farm managers and agri-business supporting the research mission of USDA-ARS and the North Central Soil Conservation Research Laboratory.
