The Delta Obesity Prevention Research Unit—
Mission Statement

The Delta Obesity Prevention Research Unit is coordinating a major research program that brings together the expertise of seven institutions in the three state region. These institutions and their research scientists provide unique skills and resources to the Delta. Their research will result in Lower Mississippi Delta specific recommendations for input into the 2015 Dietary Guidelines that will enable rural Lower Mississippi Delta individuals and families to adopt food and physical activity guidelines for sustaining healthy weights, preventing obesity, and reducing the risk factors for obesity related chronic diseases.

Current Louisiana Cooperator Personnel Supported by Delta OPRU

Pennington Biomedical Research Center

Peter Katzmarzyk
Catherine Champagne
David Harsha
Stephanie Broyles
Catrine Tudor-Locke
Ray Allen
William Johnson
Mary Afton
Dawn Turner
Katherine Cash
Erma Levy

Southern University and A&M College

Bernestine B. McGee
Glenda S. Johnson
Valerie Richardson
Crystal Johnson
Debbe Gwinn

2010 Personnel Levels Supported by Delta Obesity Prevention Research Unit

Pennington Biomedical Research Center - 12 Employees
Southern University and A&M College - 5 Employees

Steps to Adapt Physical Activity Guidelines for the Lower Mississippi Delta:

Delta Obesity Prevention Research Unit cooperating researchers at the Pennington Biomedical Research Center are determining ways in which physical activity patterns of adults in the Lower Mississippi Delta can be effectively adapted to the 2005 physical activity recommendations of the Dietary Guidelines for Americans. Through the use of pedometers and an educational program, delta residents will self-monitor their progressive steps to meet these national recommendations. Through a successful physical activity implementation and an adapted eating pattern, anticipated results include a reduction of unhealthy weight gain and an increase in physical activity levels. For additional information, contact Dr. Peter Katzmarzyk (peter.katzmarzyk@pbrc.edu) or Dr. Margaret L. Bogle (margaret.bogle@ars.usda.gov).
