

Permits and Certifications

APHIS issues permits for the import, transit and release of regulated animals, animal products, veterinary biologics, plants, plant products, pests, organisms, soil, and genetically engineered organisms.

ePermits is a web-based system that allows users to submit import /interstate movement/transit/release permit applications, track applications, apply for renewals and amendments, and receive copies of their permits. [Learn more about ePermits](#).

APHIS also issues some certifications as a service to United States exporters.

Animal and Animal Products

Includes live animals, semen, embryos and materials derived from animals or exposed to animal-source materials such as animal tissues, blood, cells or cell lines of livestock or poultry origin, RNA/DNA extracts, hormones, enzymes, microorganisms including bacteria, viruses, protozoa, and fungi. In addition, animal materials including dairy products (except butter and cheese), and meat products (e.g., meat pies, prepared foods) from countries with livestock diseases exotic to the U.S.

Accessing ePermits

Some of the many advantages of having an ePermits account include

- Notifications of permits about to expire
- Amend, renew, and copy your applications with minimal data entry
- Reprint permits at any time
- Securely submit credit card payments online
- Manage your own information to prevent transcription errors
- A single place to view and manage all of your applications, permits, letters of no jurisdiction, denials, and other permit related correspondence

How to Register to Use ePermits

ePermits uses a USDA-wide system for login called USDA eAuthentication. For more information, go to the Register to Use ePermits page. To use ePermits, you will need to register for an eAuthentication account with Level 2 access for most application permit types.

Please click here to apply for a Level 2 eAuthentication account

Login to ePermits

Registered users may access the ePermits system at <https://epermits.aphis.usda.gov/epermits> *

Applications that can be submitted online through ePermits:

Application Form	Application Name
PPQ 525A	Application for Permit to Receive Soil
PPQ 526	Application and Permit to Move Live Plant Pests or Noxious Weeds
PPQ 546	Agreement for Postentry Quarantine State Screening Notice
PPQ 585	Application for Permit to Import Timber or Timber Products
PPQ 586	Application for Permit to Transit Plants and/or Plant Products, Plant Pests, and/or Associated Soil, through the United States
PPQ 587	Application for Permit to Import Plants or Plant Products
PPQ 588	Application for Permit to Import Plants or Plant Products for Experimental Purposes
PPQ 621	Application for General Permit to Engage in the Business of Importing, Exporting, or Reexporting Terrestrial Plants
VS 16-3	Application for Permit to Import Controlled Material or Transport Organisms or Vectors
VS 16-7	Application for Permit to Import Cell Cultures and Their Products (Supplemental to the VS 16-3)
VS 17-129	Application for Import or In Transit Permit (for Live Animals, Semen or Embryos)
APHIS 2005	Application for United States Veterinary Biological Product Permit
On Hold	On Hold Shipment Notification
BRS 2000	Application for Permit or Courtesy Permit for Movement or Release of Genetically Engineered Organisms
BRS Notification	Notification of Movement or Release of a Genetically Engineered Plant

Create Application - Select Agent Confirmation

Is this an application to move or import select agents, the genes expressing select agents, or the toxins made by the select agents?

- No. This is NOT an application to move or import select agents. ✖
- Yes. This is an application to move or import select agents.

The Agricultural Bioterrorism Protection Act of 2002, as part of the Public Health Security and Bioterrorism Preparedness Response Act of 2002, requires entities that possess, use, or transfer agents or toxins deemed a severe threat to animal or plant health or products must notify and register with APHIS. This law is designed to improve the ability of the United States to prevent, prepare for, and respond to bioterrorism and other public health emergencies that could threaten public health and safety or American agriculture.

The following is a list of select agents and toxins which PPQ has considered select agents:

- Peronosclerospora philippinensis (Peronosclerospora sacchari)
- Phoma glycinicola (Pyrenochaeta glycinis)
- Ralstonia solanacearum
- Rathayibacter toxicus
- Sclerophthora rayssiae
- Synchytrium endobioticum
- Xanthomonas oryzae

Additional information regarding the USDA Select Agent Program can be found at

- http://www.aphis.usda.gov/programs/aa_selectagent/
- <http://www.selectagents.gov>
