

2006 – 2007 Seminars

The Beltsville Human Nutrition Research Center
Seminar Series

Seminars are held September through May on Tuesday at 2:00 PM (unless otherwise noted).

Tuesday, October 17, 2006

Ben Caballero
Johns Hopkins School of Public Health
“The Pathways Study”
Location: Bldg 307C, Rm 122
Host: Allison Yates

Tuesday, October 24, 2006

Jim Harnly
BHNRC, Food Composition Laboratory
“Analysis of flavonoids: the bitter and the sweet”
Location: Bldg 307C, Rm 122
Host: Craig Byrdwell

Tuesday, October 31, 2006

Ann Yaktine
Food and Nutrition Board
“Seafood Choices: Balancing Benefits and Risks”
Location: Bldg 307C, Rm 122
Host: Ellen Harris

Tuesday, November 7, 2006

Joe Urban
BHNRC, Nutrient Requirements & Functions Laboratory
“Pigs, Parasites, Probiotics, and Peanuts to Model Nutritional Immunity”
Location: Bldg 307C, Rm 122
Host: Juliette Howe

Tuesday, November 14, 2006

Hee Young Paik, Korea & Rashmi Sinha, NCI
“Dietary Assessment Cohort Studies in Korea” and “Epidemiologic Studies in Asia”
Location: Bldg 307C, Rm 122
Host: Allison Yates

Tuesday, November 28, 2006

BHNRC Roundtable

Location: Bldg 307C, Rm 122

Host: William Rumpler

Tuesday, December 5, 2006

Joanne Holden

BHNRC, Nutrient Data Laboratory

“The National Nutrient Database: What’s Behind the Numbers?”

Location: Bldg 005, Rm 21

Host: Juliette Howe

Tuesday, December 12, 2006

Patricia Guenther

Center for Nutrition Policy & Promotion, USDA

“The development and evaluation of the Healthy Eating Index”

Location: Bldg 307C, Rm 122

Host: Shanthy Bowman

Tuesday, January 9, 2007

Devanand Luthria

BHNRC, Food Composition Laboratory

“Are We Underestimating Phenolic Antioxidants in Foods and Dietary Supplements?”

Location: Bldg 005, Rm 21

Host: Craig Byrdwell, 301-504-9357

Tuesday, January 16, 2007

Harry Dawson

BHNRC, Nutrient Requirements & Functions Laboratory

“The Application of Swine Targeted Functional Genomics-Based Models to Provide Biomarkers of Human Nutrient and Disease Interactions”

Location: Bldg 307C, Rm 122

Host: Joe Urban, 301-504-8351

Tuesday, January 23, 2007

Bryan Vinyard

Biometrics Unit, BARC

“Beltsville Area’s Biometrical Consulting Service – A Resource for BHNRC”

Location: Bldg 307C, Rm 122

Host: Shanthy Bowman, 301-504-0619

Tuesday, January 30, 2007

Johanna Dwyer

Office of Dietary Supplements, NIH

“Do Flavonoids Play a Role in Postmenopausal Breast Cancer or Cardiovascular Disease?”

”Location: Bldg 307C, Rm 122

Host: Juliette Howe, 301-504-0643

Tuesday, February 6, 2007

Wayne Wolf

BHNRC, Food Composition Laboratory

“Reference Materials and New Method Development for Nutrients in Foods and Dietary Supplements: Focus on Water Soluble Vitamins”

Location: Bldg 005, Rm 21

Host: Craig Byrdwell, 301-504-9357

Tuesday, February 20, 2007

Allison Yates

BHNRC

“Director’s Hour”

Location: Bldg 307C, Rm 122

Tuesday, February 27, 2007

Al Yergey

National Institutes of Health

“Analysis of Variance - Principal Component Analysis: A Soft Tool for Proteomic Discovery”

Location: Bldg 307C, Rm 122

Host: Craig Byrdwell, 301-504-9357

Tuesday, March 6, 2007

Alanna Moshfegh

BHNRC, Food Surveys Research Group

“What We Eat In America, NHANES: Method, Collection, and Data”

Location: Bldg 005, Rm 21

Host: Cecilia Enns, 301-504-0345

Tuesday, March 13, 2007

Kim Stote

BHNRC, Diet and Human Performance Laboratory

“Whey Protein Decreases Body Weight and Fat in Supplemented Overweight and Obese Adults”

Location: Bldg 307C, Rm 122

Host: William Rumpler, 301-504-8360

Tuesday, March 20, 2007

Craig Byrdwell

BHNRC, Food Composition Laboratory

“Dual Parallel Mass Spectrometers for Lipidomics Analysis”

Location: Bldg 005, Rm 21

Host: Ellen Harris, 301-504-0610

Tuesday, March 27, 2007

Janet Roseland and Karen Andrews

BHNRC, Nutrient Data Laboratory

“Dietary Supplement Ingredient Database: Overview, Results, and Applications”

Location: Bldg 005, Rm 21

Host: Juliette Howe, 301-504-0643

Tuesday, April 3, 2007

Patricia Markum Risica

Brown University

“Breastfeeding Intention, Initiation and Duration among Low Income Women”

Location: Bldg 307C, Rm 122

Host: Ellen Harris, 301-504-0610

Tuesday, April 10, 2007

Cecilia Enns

BHNRC, Food Surveys Research Group

“Nationwide dietary data: What’s in it for you?”

Location: Bldg 005, Rm 21

Host: Ellen Harris, 301-504-0610

Tuesday, April 17, 2007

BHNRC Posters for Experimental Biology Meeting

Location: Bldg 005, Rm 21

Host: William Rumpler, 301-504-8360

Tuesday, April 24, 2007

BHNRC Posters for Experimental Biology Meeting

Location: Bldg 307C, Rm 122

Tuesday, May 1, 2007

No Seminar – Experimental Biology Meeting

Tuesday, May 8, 2007

Allen Smith

BHNRC, Nutrient Requirements & Functions Laboratory

“Selenium and vitamin E are important for host defense against gastrointestinal pathogens”

Location: Bldg 005, Rm 21

Host: Joe Urban, 301-504-8351

Tuesday, May 15, 2007

Deirdra Chester

BHNRC, Community Nutrition Research Group

“Healthy People, Healthy Communities: Community Assessment, Nutrition & Physical Activity”

Location: Bldg 005, Rm 21

Host: Ellen Harris, 301-504-0610

Tuesday, May 22, 2007

Margaret Bogle

Lower Mississippi Delta Nutrition Intervention Research Initiative, ARS

“Community-based participatory research: Challenges of conducting long term multi-state nutrition intervention research within rural communities”

Location: Bldg 307C, Rm 122

Host: Cecilia Enns, 301-504-0345

Tuesday, May 29, 2007

TBA

Location: Bldg 307C, Rm 122

Tuesday, June 6, 2007

SummerFest

Location: Bldg 005, Rm 21
