

Mondays 4:00 – 5:00 pm, HNRCA auditorium, 711 Washington Street, Boston, MA.

OCTOBER 2008

- 06** **James A. Joseph**
Neuroscience Laboratory Director, HNRCA
Fruits, Nuts and Brain Aging
HNRCA Auditorium
- 13** **HOLIDAY - No Seminar**
- 20** **Postdoctoral Seminar**
- 1. Brad Bolling, Postdoctoral Associate**
Antioxidants Laboratory, HNRCA
Age-related Changes of Flavonoid Glucuronidation in F344 Male Rats
 - 2. Zhihong Ren, Postdoctoral Associate**
Nutritional Immunology Laboratory, HNRCA
White Button Mushroom Enhances Maturation of Bone Marrow Derived Dendritic Cells and Their Antigen Presenting Function in Mice
 - 3. Lauren Willis, Postdoctoral Associate**
Neuroscience Laboratory, HNRCA
Walnut Supplementation Attenuates Microglial Activation in the Aged Rat Brain
HNRCA Auditorium
- 27** **TBA**

Tufts
UNIVERSITY

School of
Medicine

The Jean Mayer USDA Human Nutrition Research Center on Aging (HNRCA) at Tufts University welcomes students, faculty, and other interested parties to the HNRCA Seminar Series — weekly seminars on cutting edge nutrition and aging research topics. Seminars are held on Mondays during the academic year and are sponsored by the Tufts University School of Medicine in collaboration with the HNRCA. Tufts University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians and designates this educational activity for a maximum of 1 category 1 credits toward the AMA Physician's Recognition Award. Each physician should claim only those credits that he/she actually spent in the activity. In addition, each seminar may be reported as 1 hour of continuing education credit for registered dietitians. Please see <http://nutrition.tufts.edu/events/seminars/hnrc/> for more information.
