

Instructions for installation

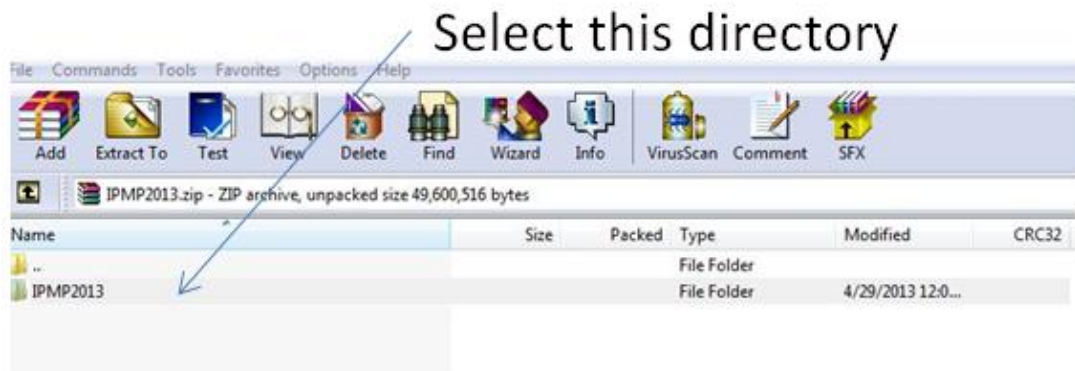

IPMP2013 has been compiled for the Windows operating system. Please follow the following procedures for installation. Please refer to the tutorial (IPMP_tutorial.pdf) for instructions on how to use the software.

- 1) Download IPMP2013.zip and save this file to your computer.

- 2) Double click IPMP2013.zip. An interface will open.

- 3) Click to select IPMP2013
- 4) Click Extract to. The default direct will be ..\Desktop\IPMP2013. Change directory if necessary.
- 5) Once unzip, open the directory containing IPMP2013 in your computer.
- 6) Click PMPMainWindow.exe, and the program should work.
- 7) Or, you can right-click PMPMainWindow.exe, click Send to, then choose “desktop”. A shortcut will be created on the Desktop. Click the shortcut Icon “PMPMainWindow.exe Shortcut” to start the program. If you have any question, please e-mail Lihan.Huang@ars.usda.gov
