GRACEnet (Greenhouse gas Reduction through Agricultral Carbon Enhancement network): An Assessment of soil C sequestration and greenhouse gas mitigation by agricultural management

Products: Guidelines and Summary Documents

Greenhouse Gas Contributions and Mitigation Potential in Agricultural Regions of North America
Edited by Alan J. Franzluebbers and Ronald F. Follett

Journal of Soil and Water Conservation
Feature article

Franzluebbers, A.J. 2005. Soil organic carbon sequestration and greenhouse gas emissions in the southwestern USA. p. 120-140.
