ANIMAL ID 117404 DEATH DATE 7/30/03 PROJECT RU

LOCATION: BLDG 100Series PEN # _____ PASTURE # _____

SEX E APPROXIMATE AGE _____

Changes or observations of last 7 days which may be related to animal's condition:

NO

SHEPHERD: [redacted]

Necropsy/Post Mortem Observations

Circle One: DAB DSAB (24 hr.) DIED (> 24 hr.) EUTHANIZED

0. general exam — Thin poor condition
1. skin/sub Q
2. musculoskel
3. respiratory — Normal appearing lungs except
4. circulatory — for CV pleural adhesions, chronic
5. hemic;lymph — pleuritis
6. digestive — Traumatic parasite infestation of
7. urogenital — abomasal, small & cecal
8. endocrine — mucosa with acute hyperemia
9. nervous — & congested mesenteric
X. spec/sense — lymph nodes enlarged
