Michael

This is to follow up on the email I sent to you on June 10. I will be sending three emails, labeled email 2, email 3, and email 4, to you this morning with sets of experiment outlines.

Email 2: Attached are the experiment outlines for the Genetics, Breeding and Animal Health Group and one for the Sheep Operations, which were previously emailed to you on June 10.

Please note that the scanner that we have available cannot scan 2-sided pages in order; therefore, you will note that the pages are odd followed by even.

If you have any questions, please contact me at 301-504-1655.

Sincerely,

Stasia
