

Please provide a 1-3 sentence description of your organization.

**Renewable Agricultural Energy, Inc.**-- Renewable Fuels production

Relative to bioenergy, what are your top problems and which research products (or researchable questions to which you need answers) would help you solve these problems?

Commercially demonstrated opportunities for cost reduction

What do you think ARS's top bioenergy research priorities should be (no more than five, please)?

- ◆ Sustainable cropping practices for all renewables
- ◆ True understanding of costs of biomass production, transport and storage by crop
- ◆ Best crops by region for bioenergy production
- ◆ True understanding of GHG for crop production
- ◆ Value added DDGS opportunities
- ◆ Alternative technologies for germ to oil purification

**Additional customer service questions:**

What might ARS do to serve its customers/stakeholders better?

- ◆ Open and transparent communication of research project results
- ◆ Full articles on web site
- ◆ Newsletters

What, in particular, about ARS would lead you to recommend ARS to someone else looking for similar research products?

That the information is openly available
